Distributor: Ingram

The Armageddon Two-Step is a novel about reality and truth built for the Age of Trump; a comedic farce tinted with magical-realism about a young man named Shelby Albert Goddard who saves the world and then must live with the consequences.

EARLY PRAISE FOR THE NOVEL

“The Armageddon Two-Step is a clever, witty, and frequently biting tale of unlikely fame, carved out by a genuine storyteller.”

—ANTHONY SQUIERS, author of *Madness & Insanity*; Co-editor of *Philosophizing Brecht: Critical Readings on Art, Consciousness, Social Theory and Performance*

“Gray’s story indulges in whimsy from the start.... This amusing tale with a quirky hero offers plenty of surprises.”

—KIRKUS REVIEWS

“A small confession. I’ve been reading Michael Loyd Gray’s prose for more than 30 years—since he was a reporter on a business newspaper in Arizona as I was his managing editor. Over this long period of time, Michael’s writing has only gotten better. **There’s a pleasant rhythm to his sentence construction that eases you into his stories like finding relaxation in your favorite comfy chair.**”

—Steve Bergsman, author of a dozen books; his next book is *I Put a Spell on You: The Bizarre Life of Screamin’ Jay Hawkins*
